Zadeva: Obvestilo o uvajanju sistema najav kamionov

Spoštovani,

kot ste bili obveščeni, smo z dnem 21.5.2019 pričeli s produkcijskim uvajanjem sistema najav kamionov (VBS – Vehicle booking system) za PC Terminal za generalne tovore (GT) in PC Razsuti in tekoči tovori (TRTT). Ker smo v prehodnem obdobju uvajanja, zaenkrat še ostajamo tolerantni do vstopa kamionov, ki nimajo najav. Vseeno pa vas prosimo, da upoštevate navodila in prihode kamionov za GT in TRTT najavljate.

Spodaj so navedene informacije o trenutnih časovnih redih (slotih) za posamezne terminale, ki se bodo s časom lahko prilagodili:

- PC Terminal za generalne tovore in PC Razsuti in tekoči tovori => slot najave, ki je bil planiran in potrjen s strani planerja in je viden v VBS +/- ena ura tolerance
- PC Kontejnerski terminal => slot v dolžini ene ure +/- ena ura tolerance
- PC Terminal za avtomobile in Ro-Ro => bo določen naknadno.

V kolikor še niste pridobili uporabniškega računa za uporabo sistema VBS, prosim izpolnite [vlogo na spletni strani](#).

Obveščamo vas tudi, da so vsi ponudniki špediterskih aplikacij prilagodili svoje sisteme za potrebe najav kamionov, tako da lahko tudi prek teh sistemov izvajate najave.

Za vsa vsebinska vprašanja smo vam še naprej na voljo na elektronskem naslovu najava.kamionov@luka-kp.si in na telefonskih številkah +386 (0)5 66 56 470 ali 471. Za tehnično pomoč pa lahko pokličete na telefonsko številko +386 (0)80 1316 ali pišete na elektronski naslov pomoc.actual@actual-it.si.

Zahvaljujemo se vam za sodelovanje in podporo pri uvajanju sistemskih rešitev, ki bodo koristile vsem deležnikom v logistični verigi.

Lep pozdrav,
Luka Koper, d. d.

Notice on the introduction of the VBS – Vehicle booking system

Dear business partners,

As you had already been informed, on May 21, 2019 we launched the VBS – Vehicle booking system for the General cargoes terminal (GT), Bulk cargoes terminal and Liquid cargoes terminal. Since we are in the transitional period for the VBS introduction, we still tolerate the entrance of trucks which are not booked. However, we are kindly asking you to follow the instructions and book the trucks' arrivals at General cargoes Terminal and Bulk cargoes terminal.

Please find below the information about the current booking slots for single terminals, which gradually will be adapted:

- General cargoes terminal, Bulk cargoes terminal and Liquid cargoes terminal => booking time slot, which was planned and confirmed by the planner and is visible in the VBS system +/- one-hour tolerance,
- Container terminal => one-hour time slot +/- one-hour tolerance,
- Car and Ro-Ro Terminal => will be defined at later date.

In the event you still have not obtained the user's account for the VBS system, please fill in the [online application](#).

Please be informed that all providers of forwarding agents service applications have adapted their systems for the needs of the vehicle booking, therefore the bookings may also be made through these systems.

If you have any question, please do not hesitate to email us at: najava.kamionov@luka-kp.si or call the phone numbers +386 (0)5 66 56 470 or 471. For technical assistance you may call the phone number +386 (0)80 1316 or email at: pomoc.actual@actual-it.si.

We thank you for your cooperation and support in the introduction of system solutions for the benefit of all stakeholders in the logistics chain.

Best regards,
Luka Koper, d. d.
