Zadeva: Obvestilo uporabnikom sistema Lunarisa in Lunarisa Plus - uvedba sistema najave kamionov

Spoštovani,

obveščamo vas, da smo pričeli z uvajanjem sistema Najav kamionov – VBS (Vehicle booking system), s katerim želimo povečati varnost, izboljšati planiranje in upravljanje (zagotovitev vstopa v pristanišče ob dogovorjenem terminu, manj zastojev, hitrejši pretovor) ter zagotoviti podatke za nadaljnjo optimizacijo procesa v korist vsem deležnikom v logistični verigi.

V ta namen je bila v aplikaciji Lunarisa in Lunarisa Plus dodana funkcionalnost za najavljanje kamionov. Uporaba te funkcionalnosti je podrobno opisana v prilogi.

Priloga: Uporabniška navodila Lunarisa in Lunarisa Plus

Lep pozdrav,

Luka Koper, d. d.

To all Lunarix and Lunarix Plus users

20 May 2019

Re: Notice for Lunarix and Lunarix Plus system users – introduction of the Vehicle Booking System (VBS)

Dear business partners,

Please be informed that we started implementing the Vehicle Booking System (VBS) which will contribute to increasing the safety, improving planning and management processes (arrival to the port in the agreed time slot, less congestion, faster throughput) and providing data for a further optimisation of the process to the benefit of all stakeholders in the logistics chain.

For this purpose, an online functionality for booking trucks appointments has been added in the Lunarix and Lunarix Plus system. The instructions on how to use the new functionality is presented in the attached manual.

Attachment: User manual Lunarix and Lunarix Plus

Kind regards,

Luka Koper, d. d.
